

DEPARTMENT OF THE NAVY
BOARD FOR CORRECTION OF NAVAL RECORDS
2 NAVY ANNEX
WASHINGTON, D.C. 20370-5100

JRE
Docket No: 5740-99
12 October 2000

[REDACTED]

Dear [REDACTED]

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 28 September 2000. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice.

The Board found that you were discharged from the Navy on 14 August 1985 by reason of physical disability existing prior to entry on active duty (EPTE), and not aggravated by service. The fact that your condition, osteochondritis dissecans, was not noted on your pre-enlistment physical examination is insufficient to demonstrate that your subsequent discharge for an EPTE condition was erroneous. In this regard, the Board noted that osteochondritis dissecans is a developmental condition which, by definition, pre-dated your enlistment. The fact that the effects of that condition only became apparent after you enlisted, and ultimately rendered you unfit for duty, does not amount to aggravation of the condition beyond its normal, expected progress, or entitle you to disability benefits administered by the Department of the Navy. Accordingly, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this

regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

W. DEAN PFEIFFER
Executive Director
